SUMMARY

Mid-Level Python Developer with 2+ years of experience building scalable applications, automation systems, and data-driven solutions. Experienced in backend, web, and mobile development using modern technologies including Python, FastAPI, React, and Flutter. Strong problem-solving skills with a focus on building efficient, maintainable, and reliable systems in collaborative development environments.

EXPERIENCE

Elgada BPO Solutions Inc. - Mid Python Developer

Makati City, Philippines

09/2023 - 07/2026

- Collaborated with a cross-functional development team to design and implement scalable web scraping and browser automation solutions for large-scale data extraction workflows using Selenium WebDriver, and Playwright.
- Developed and maintained high-performance scraping systems capable of handling dynamic, JavaScript-heavy websites, while optimising reliability, speed, and resource efficiency.
- Integrated anti-bot evasion techniques and security bypass strategies, including CAPTCHA handling, proxy rotation, browser fingerprint management, rate limiting mitigation, and firewall-aware automation workflows.
- Engineered robust automation pipelines that improved data acquisition efficiency, reduced manual intervention, and enhanced overall operational scalability.
- Applied advanced automation and data management practices to streamline task execution, increase system resilience, and ensure consistent data accuracy across multiple sources.

Tech Stack: Python, Selenium, Playwright, MySQL, Redis, Docker, Jenkins, and AWS.

Marinduque Provincial Office - Computer Programmer (Python)

Marinduque, Philippines

06/2023 - 08/2023

- Effectively designed and implemented a biometric time attendance system using Python's tkinter library and MySQL as the database, aimed at optimising employee attendance tracking processes.
- Created a robust solution that significantly enhanced operational efficiency and accuracy within the organisation, despite limited time constraints.
- Resolved the existing biometric time attendance issues from the earlier system.

SKILLS

- Python
- FastAPI
- MySQL
- Flutter
- React TypeScript
- Docker
- Selenium
- Playwright
- Web scraping & Automations

CERTIFICATIONS

- Google Data Analytics Specialization, Coursera, 2023-03-01, GSQWCLHUKJGH
- Awarded DOST Scholarship (R.A. 7687), DILG Marinduque Provincial Office

EDUCATION

01/2023

Marinduque State College

BS: Computer Engineering

01/2019

Marinduque State College

Senior High School: STEM

01/2017

Marinduque Midwest College

Junior High School

01/2014

Gasan Central School

Elementary

- Received positive feedback from stakeholders for the successful implementation and impactful contributions to organisational efficiency and productivity.

Tech Stack: Python, MySQL, Tkinter

Marinduque Provincial Office - Intern

Marinduque, Philippines

04/2023 - 06/2023

- Successfully developed and launched a locally hosted offline website for managing barangay legislative documents such as ordinances, code of ordinances, and resolutions made using the Laravel framework and Tailwind CSS while employing Agile Methodology for fast-paced development.
- Garnered positive feedback from selected barangay secretaries and supervisors.

Tech Stack: Laravel PHP, TailwindCSS, HTML, CSS, JavaScript, MySQL
